an award winning service and the most modern fleet on the channel

norfolkline's fleet of three purpose-built vessels heralds a new era in cross channel ferry travel. Strikingly contemporary, they have been designed to be practical for all the family to enjoy.

There's a mouthwatering selection of menus and eateries onboard, from a quick snack to a full three course meal, and our spacious onboard shop is generously stocked with all your favourite high street brands.

Unlike other ferries, our vessels carry freight and tourist passengers in totally segregated areas (even the vehicle decks are separate). This enables us to tailor each deck around the different needs and expectations of freight and tourist drivers.
